Set-Asides: VOSB · Small Business

State: Colorado · CAGE: 8PDQ8

WHO WE ARE

Huttan Holding LLC (VOSB) sits at the intersection federal procurement is converging on for 2026 — CMMC Registered Practitioner credentials combined with operational AI governance under one GSA MAS contract.

Agencies acquire AI workforce training, AI risk management, and CMMC-aligned cybersecurity via task orders against 47QTCA23D00CX, under the simplified acquisition threshold.

CORE CAPABILITIES

AI Governance & Integration (AIGIP)

Federal-grade AI governance, aligned to NIST AI RMF and OMB M-25-21.

- ◆ Governance framework design and policy libraries
- ◆ AI literacy and certification pathways (AIGIP)
- ◆ Fractional Chief AI Officer (fCAIO) advisory

Cybersecurity Compliance & Advisory

CMMC 2.0, NIST 800-171/53, CUI governance for DoD and DIB contractors.

- ◆ CMMC L2 readiness, SSP and POAM authoring
- ◆ vCISO, SOC advisory, digital forensics
- ◆ CUI data governance, SIEM, vendor cyber risk

Agentic AI & Technology Services

Custom AI agents and dashboards for regulated environments.

- ◆ Agent development and workflow automation
- ◆ RAG integration and executive AI dashboards
- ◆ Model provenance, bias, and explainability assessments

Board & Expert Services

Cyber and AI guidance at the board and litigation level.

- ◆ Board-level cybersecurity advisory
- ◆ Expert witness — cyber and AI litigation

WHY HUTTAN

Dual Expertise — One Contract

Most firms do cybersecurity OR AI governance. We deliver both under one schedule — eliminating the 3–6 month multi-vendor coordination overhead and the 15–25% teaming overhead premium.

Pre-Built Platform — 90-Day Deployment

Agencies stand up an AI governance program in 90 days instead of 18 months using the AIGIP platform and pre-developed training content.

DoD-Credentialed Leadership

Principals hold CMMC Registered Practitioner credentials — a rare DoD-recognized qualification for DIB and CUI work.

Task Orders Without Open Competition

Agencies issue task orders directly against our schedule within the simplified acquisition threshold — shortening time-to-award.

SERVICES AT A GLANCE

AI Governance	Cybersecurity	Workforce Training
NIST AI RMF · OMB M-25-21	CMMC 2.0 · NIST 800-171 · vCISO	AIGIP · OMB / OPM / DOL Aligned
• Governance framework implementation (NIST AI RMF · OMB M-25-21) • AI policy and strategy advisory via fCAIO engagement • AI risk assessments — identify control deficiencies, prioritize remediation • AIGIP certification delivery — executive, practitioner, specialist • 90-day agency deployment model	• CMMC Level 2 readiness for DoD contractors handling CUI • NIST 800-171 implementation, SSP and POAM authoring • CUI data governance and continuous monitoring programs • vCISO, SOC advisory, digital forensics • GRC platform implementation and vendor cyber risk	• AI literacy and governance training for agency workforces • Curriculum aligned to OMB AI policies and OPM / DOL guidance • LMS-delivered or instructor-led, executive briefings included • Completion certificates trackable for agency reporting • Per-cohort or department-wide licensing

PAST PERFORMANCE

Past Customers: More detailed past performance statement available upon request

Corporate Merchandiser - Manufacturer <i>PCI DSS · NIST CSF · NIST PF · AIGIP</i> PCI DSS audit findings reduced from several hundred to zero via SAQ D → SAQ A migration; AIGIP delivered; security posture enabled successful PE diligence.	DoD Training Systems Contractor <i>CMMC 2.0 · NIST 800-171 · GCCH · AIGIP</i> Architected CMMC-compliant GCC High enclave protecting DoD DIB CUI; AIGIP training video generation delivered for multiple Army & Navy contracts.
EHS Data Platform <i>TX-RAMP · NIST CSF / PF / SSDF · 800-171 · AIGIP</i> Achieved TX-RAMP certification; security maturity facilitated onboarding of 12 new global EHS clients; AIGIP pilot to 2 leadership personnel.	Building Technology & Automation <i>CMMC 2.0 · NIST 800-171 · GCCH · NIST AI RMF</i> Achieved CMMC L1 self-certification; CMMC L2 readiness underway; building GCCH enclave with CMMC-qualified MSP; AIGIP training delivered to 3 leadership personnel.
